Lesson 1: The Equine Grid Explained;
Lesson 2: Key Anatomy of The Eye
Appendix 1: References, Further Reading, Useful Websites
Appendix 2: Edwards / Wrentmore Equine Iridology Grid 2017
Appendix 3: Edwards / Wrentmore IPB & Spinal Chart 2017
Appendix 4: Example Report, Photos & Grid Markings

Assignment 2

4. Module 4: Constitution & Disease; Over-activity & under-activity

To be assessed with module 5

5. Module 5: The Pupil, Corpora Nigra, Radii Solaris and Inner Pupillary Border

a. Assignment 3 (covering modules 4 & 5)

6. **Module 6:**
 - a. The Digestive System & The Autonomic Nerve Ring.
 - b. Probiotics
 - c. Assignment 4
7. **Module 7a: The Five Channels of Elimination & their significance:**
 - a. The Respiratory System & Heart (throat, trachea, bronchioles, chest)
 - b. The Skin
 - c. The Liver
8. **Module 7b: The Five Channels of Elimination & their significance (continued):**
 - a. The Kidneys, Bladder
 - b. the Lymphatic system
 - c. The Spleen & Immune System
 - d. Assignment 5 (covering modules 7a & 7b)
9. **Module 8: The Structural System & Hyoid (Spinal Reflex Chart and IPB)**
Assessed with module 9
10. **Module 9: The Endocrine System & Reproductive Systems**
Ovaries, testes, adrenal, thyroid, pituitary, uterus, prostate, pancreas,
 - a. Assignment 6 – (covering Modules 8 & 9)
11. **Module 10: Summary of Herbal Remedies**
12. **Module 11: Practical Assessment Day**

Assessed on site or via distant submission with interview

Summary of Assignments:

6 Assignments in total.

Practical Assessment:

Practical Assessment day on site with Catherine where students will have to examine multiple horses, write reports and discuss findings with owners, whilst being assessed by Catherine Edwards or an approved instructor. Special arrangements may be made for students not in the U.K. to complete this via video assessment and interview

Case Studies – 10 – to be submitted and all must obtain a 'Pass'. Will include full assessment, report, photo's, recommendations and follow-up results.

Course Fees:

Option 1: £3,999.00 for one-off payment; Payment plan available

Course Duration: Maximum of 2 years from commencement

Insurance: All students will be required to take out student insurance (available through Balan's or your own Insurance provider). Students are required to arrange and pay for this themselves.

Pre-Requisites:

1. Anatomy & Physiology: overview anatomy & physiology training is included to ensure all students are competent to perform an accurate iridology assessment and understand the implications of the results. This is included in Modules 3, 5, 6, 7a, 7b, 8 & 9. This course does NOT give a separate A & P Qualification.
2. No previous qualifications are required. I suggest arranging a call with Catherine to discuss if this call is a good fit for you - this can be arranged here: <https://www.catherineedwards.life/consults/free-discovery-call-15-mins/>

Additional Benefits:

1. Templates for consult forms and Iridology Grid provided.
2. Discount on any further courses studied with Catherine Edwards Academy.
3. Ongoing support from Catherine Edwards for the duration of the course.

Equipment Requirements – full details specified in Module 2, but budget overview (please note these are estimates only):

1. Handheld adjustable torch & magnifying glass – allow £25.00- £50.00
2. Optional: Digital SLR camera and second hand macro-lens NB some phones may now have a sufficient camera. This will be up to the individual to determine but I will advise.
3. Reference Books – will depend on previous knowledge & experience.
